

ECO PATHSHALA & COLLEGE: A MASON FOR MAKING ENLIGHTENED HUMAN BEING

www.ecopathshalaandcollege.edu.bd

BACKGROUND

- The core purpose of education is to provide children with a learning environment which brings out the best in them.
- We believe that every child is endowed with a unique set of attributes and abilities, which need to be nurtured so that they blossom.
- Therefore, every child deserves an education that fosters academic excellence and all-round development and ensures their well-being..
- We recognize the challenges of an inter-dependent and competitive world and the need for our children to adopt and excel in it.
- We believe in an education system that stimulates children to use their multiple faculties and think in connected ways and can better prepare them for success.
- To that end, Eco Pathsala has developed a highly experiential and contextual dynamic learning model using the appropriate tools, apparatus and facilities available in the school.
- By adopting a creative and collaborative approach to learning Eco Pathsala and College was established in 2001 .

TEACHING AND LEARNING

The curriculum uses a variety of engaging teaching and learning methodologies that challenge and motivate learners to excel.

It focuses on nurturing in them knowledge and skills essential for success in the 21st century.

Inquiry-based and application-oriented approaches across all subjects and age groups enable students to learn about and respect a range of ideas,

Our teachers make use of flipped classrooms, project-based learning, brainstorming, role play, interactive lab experiments and self and peer evaluation, to make learning more engaging and effective.

Our educational programmes help students:

- To develop confidence to work with information and ideas – their own and those of others

- To take responsibility for themselves and their actions and be respectful of others

- To become reflective learners and be able to identify their ongoing learning needs

- To be creative, innovative and fully equipped for future opportunities and challenges

- To be articulate, effective communicators, and to express themselves appropriately

- To empathies with others and understand and appreciate diversity

- To develop as responsible individuals who enjoy a healthy, active and balanced lifestyle

- To be engaged citizens, contribute to the community and address global challenges
